Subject index

tt = Technical Tip

5α-Reductase deficiency 335
Adenosine deaminase deficiency 278
Adenovirus E1A proteins 98
Adrenal hyperplasia 275
Agouti locus 321
Agrobacterium tumefaciens, and chloroplast transformation 217
Albino locus 321
Allelic exclusion, and Ig genes 231
Amphibian limb development 103
Amplification,
in development 301
of c-*myc* 327
of N-*myc* 271
of oncogenes 245
visualization 255
Androgens, human 335
Aneuploidy,
human 123
mouse 129
Anti-sense RNA 22
Apical meristems and plant development 165
Arbacia punctulata 12
Archaebacteria, evolution of 268
Artificial chromosomes, in yeast 8
Ashen, a dilute-like mutation 170
Aspergillus nidulans transformation (tt) 244
Autonomously replicating sequences 8
Avian leukosis virus 327
Axolotl (*Ambystoma mexicanum*), early development 125

Becker muscular dystrophy, carrier detection 193
Bithorax complex 112
Blotting electrophoresis (tt) 7
Bridges, Clavin Blackman 151
Burkitt's lymphoma and c-*myc* 327

cDNA
probes (tt) 316
synthesis (tt) 316
Caenorhabditis elegans
heterochronic mutations 2
molecular genetics 243
sex determination 85
Cancer
and proto-oncogenes 245
N-*myc* 271
Carrier detection, muscular dystrophies 193
Cats, genetics 236
Caulobacter, differentiation 317
Cell cultures, and muscular dystrophy 205
Cell cycle
in yeast 51
of *Caulobacter* 317
Cell lineage, in *Caenorhabditis elegans* 2
Centromeres, yeast 8
Chemotaxis, in *Caulobacter* 317
Chick limbs 103
Chimeras (mouse) with trisomic cells 129
Chloroplast DNA, isolation (tt) 40
Chloroplast transformation *217*
Chorion, amplification of gene 301
Chorionic villi cultures (tt) 316
Chromosomal translocations, and c-myc gene 63
Chromosomes, artificial 8
Ciliates
clonal heredity 295
cytoplasmic inheritance 298
rDNA amplification 301
Clonal heredity, in ciliates 295
Cloning with *En* and *Mu1* (tt) 158
c-*myc* 327
and chromosomal translocations 63
Coat colour
mouse 321
cats 236
Complement, genetics 145
Computed tomography, detection of muscular dystrophies 193
Cosmid rescue (tt) 294
vectors for higher plants (tt) 127
Cytoplasmic inheritance 298
islands in axolotl embryogenesis 125
Cytotaxis, in ciliates 295

Databases, Protein Identification Resource 221
Development
sexual in *Drosophila* 209
of plants 165
de Vries, Hugo 151
Dilute locus 321
Dilute-short ear complex 170
Dispensable genes 160
DNA and protein blots (tt) 6
DNA methylation, in extra-embryonic lineages 89
DNA polymorphisms, human, 177
DNA replication 26
